PAN India Distribution

Customer-Centric Approach

Committed to making fire safety simple, affordable and accessible.

What is a Fire?

Fire is a rapid chemical reaction called **combustion** that produces heat, light, flames and smoke.

For fire to start and continue burning, three elements must be present at the same time.

Remove any one of these elements, and **the fire will be extinguished.**

HEAT

A source of ignition that raises the temperature of the material to its ignition point.

OXYGEN

Oxygen in the air (about 21%) that supports combustion.

FUEL

Any combustible material that can burn, such as wood, paper, gas, oil, fabric, plastic, etc.

Understanding fire is the first step to preventing it.

Fire Incidents in India

Recent incidents remind us that fire can happen anywhere, anytime.

Major Fire at Delhi Factory, No Casualties

Delhi | 28 May 2026

A fire broke out in a manufacturing unit in Delhi's Bawana Industrial Area. Fire brigade controlled the blaze. No injuries reported.

LPG Cylinder Blast Triggers Fire in Indore

Indore, Madhya Pradesh | 20 February 2026

An LPG cylinder blast led to a major fire in a restaurant in Indore. Several people sustained injuries.

Fires don't wait. Neither should we.

Be Prepared. Stay Safe.

Why Fire Safety Matters

A small fire today can become a big disaster tomorrow.

Thousands of fire incidents
every year.

Majority begin as **small fires**.

Delayed response
causes huge losses.

Initial **30 seconds**
are most critical.

Fire Incidents in India

Homes

21,000+

incidents
annually

Industries

7,000+

incidents
annually

Offices

4,500+

incidents
annually

**LPG
Installations**

According to NFPA/CREDAI & NCRB data,
India reports over 1.3 lakh fire incidents every year.

Early suppression saves lives.

Challenges with Traditional Fire Extinguishers

Traditional Fire Extinguisher

- ✗ Needs training
- ✗ Panic during emergency
- ✗ Heavy
- ✗ Manual operation
- ✗ Difficult for children & elderly

VS

FIRE XROSS AUTOMATIC FIRE SAFETY SOLUTIONS

- ✓ Automatic
- ✓ Lightweight
- ✓ No training
- ✓ Easy installation
- ✓ Instant activation

Make the smart switch. Choose safety that works automatically.

Introducing **FIRE XROSS™**

Automatic Fire Extinguishing Ball

Self Activation (3-10 seconds)

Activates automatically on contact with fire within 3–10 seconds.

Portable

Easy to carry and can be placed anywhere, anytime.

Lightweight

Designed to be ultra-light for convenient handling and use.

Easy to Install

No tools or special training required. Just place in the risk area.

Maintenance Free

No refilling, no servicing. Always ready to protect.

5 Years Warranty

Reliable protection with 5 years of warranty.

“Apno ki Suraksha, Ghar ka Vishwas!

rahe Hamesha Pass”

How FIREXROSS™ – Automatic Fire Ball works?

01

STEP 1

Fire Starts

02

STEP 2

Fire Ball comes in
contact with flames

03

STEP 3

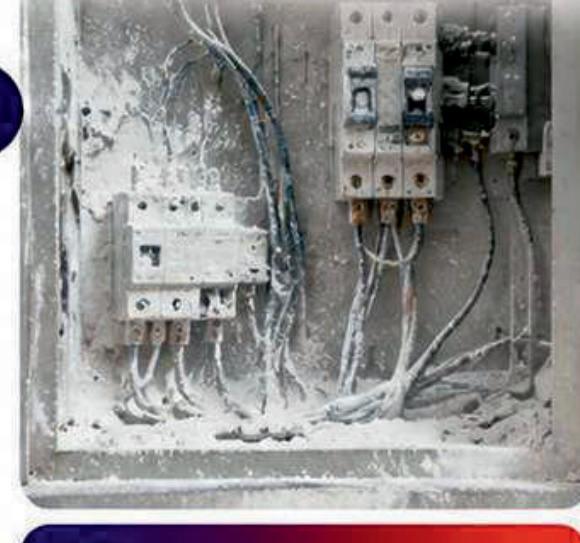

Activates within
3–10 Seconds

04

STEP 4

Extinguishing powder
disperses automatically

Fire Controlled

Safety Advantages

Advanced Protection. **Maximum Safety.**

FIREXROSS™

Automatic Activation

Activates within 3–10 seconds on contact with fire. No human action required.

Works on Multiple Fires

Effective on Class A, B, C & E fires. Ideal for LPG, electrical & liquid related fires.

360° Protection

Releases extinguishing powder in all directions to quickly suppress the fire.

No Maintenance

Maintenance-free solution with a shelf life of up to 5 years.

Easy to Install

Lightweight and easy to mount using the provided bracket.

Safe & Non-Toxic

Environment friendly powder. Safe for people, animals and equipment.

Long Shelf Life

Reliable protection ready to use anytime within its shelf life.

Cost Effective

Low-cost safety solution that minimizes fire damage and losses.

One Ball. Many Benefits. Complete Peace of Mind.

Installation Methods:

No wiring
required.

Easy bracket
installation.

Inside Car Engine Bay

Mount under the hood
using the bracket.

LPG Cylinder Area

Install above or near
the LPG cylinder.

Electrical Panel

Mount above electrical
panels or switch boards.

Control / Junction Box

Fix on top of control
or junction boxes.

Godowns / Warehouses

Install at high points
for maximum coverage.

Kitchen / Home

Mount on the wall
in kitchens or homes.

Smart Protection. **Easy Installation.** Total Peace of Mind.
